NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

With this long hot spell all of this part of the country is being plagued with grass fires and in and around Hamlin has been no exception. Hardly a day goes by without the local fire department being called out to fight some kind of grass fire—from a small fire around a grabage can to a big pasture eating one.

Sometimes we fail to realize just how much damage these small fires can cause since for the most part nothing of value is really lost. (Of course, this does not include the big pasture fires where a great deal is lost.)

But really a great deal is lost every time the local fire department is called out. About average on a small fire would be the use of two pieces of equipment and ten men. About five of these men would be using their own transportation.

The equipment replacement cost would be about \$30,000 if wrecked or when worn out.

It takes about 30 minutes to extinguish most of these small fires by the time the equipment is serviced and returned to the station. With a volunteer department like ours it means that these ten men have been off of their jobs or away from their businesses for this half hour. Someone has to pay for this.

Then you add the cost of fuel, water, chemicals, soiled clothes and you see that even the small fires are very expensive.

The Hamlin Volunteer Fire Department has issued a plea that everyone be very careful before starting a fire. If in doubt as to whether the fire might spread please do not light it.

The Johnny Bryants and May Gay of Bryant Insurance Agency must be living right these days as they received a \$100 bill in the mail this past week with no markings as to where it came from. It seems that last December 7, \$100 was missing from their safe and the only answer seems to be that someone's conscience bothered them or else they just needed a short term loan.

But, before you rush down there for one of these interest free short term loans let me assure you that we checked and they are not going into the over-the-counter loan business.

Since our son Darrell is in Europe on a foreign study tour and is presently in Austria, we were a little more than interested last week when the story broke about one of these tour companies going bankrupt.

We first heard about this when our youngest, Rick, came into the kitchen late Monday night and told us he had just heard on the radio news that some students were stranded in Europe when the tour company they were traveling with went broke. But he did not know which company or much of anything else. We listened to the radio after that and heard no more about it.

The next morning's paper failed to have a story about any company going broke and stranding students overseas. In fact we checked three dailies without success.

It was not until the afternoon Abilene paper was in town that we found the details on the story and found that it was not the same company that was sponsoring Darrell's trip.

Incidentally, we received a letter Saturday from the Foreign Study League, which is the company that he is traveling with, assuring us that everything was in order and that they were not associated in any way with the bankrupt firm.

Debbie Tucker, a former resident of Hamlin, now living in Abilene, is also on the FSL tour and we feel sure that her relatives here were anxious to learn the details also.

JUST ONE OF MANY—Hamlin Volunteer Firemen answered a call at McCaulley Wednesday afternoon when a trash fire got out of control and threatened some nearby buildings. A check Tuesday afternoon revealed that the department had been called out for 12 grass fires since July 1. Residents are repeatedly urged to help prevent grass fires. Extreme caution is urged, especially during the hot dry season.

Farm Program Checks Now Being Made

First of some \$3,500,000 in government checks have been mailed to farmers in Jones County and the money will continue to flow as quickly

as farmers certify they have computed and the checks are made out.

Brad Rowland, manager of the county ACS office in Anson, said two to three weeks are required from the time certification is made until the checks are mailed. Papers are forwarded to New Orleans where the payments are computed and checks are made out. Then the checks are forwarded to Anson, signed and mailed to farmers.

The feed and wheat grain checks are together but the cotton is separate, the administrator said. Total amount of money involved in the wheat and feed grain program is substantially the same as last year but cotton payments are up.

Mr. Rowland said the increase in cotton payments is due largely to the fact that the county has had good yields in the last few years and this is reflected in the projected yield. The cotton payments are up some \$500,000 over last year.

Mr. Rowland said it is possible the cotton payments total will be the largest ever made in Jones County.

72 Enroll Here In Adult Driver Training Course

Seventy-two persons enrolled Monday evening for the first session of the Adult Driver Training Course being conducted here by the Texas Department of Public Safety.

The adult students were divided into two classes, one for Spanish speaking and one being taught in English. Forty-five were in the Spanish speaking class. The other 27 students attended the English speaking session.

Sponsored by the Hamlin Police Department and the Jones County Sheriff's Department, the nightly sessions will be concluded tonight (Thursday) with examinations for participants. The classes are being held at Hamlin High School.

Welding Short Course for Adult Farmers to Start Here Monday

An oxy-acetylene welding short course for adult farmers will start Monday under the sponsorship of the Hamlin High School Vocational Agriculture Department, according to Milburn E. Wink and T. C. Blankinship, teachers of vocational agriculture.

The short course is scheduled to begin Monday at 8:00 p.m. in the vocational agriculture building. Other meetings in the series will be held July 21, 22 and 23.

Charles H. Yeates, welding specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A & M College, will be the instructor for the course. He is headquartered at Texas A & M College.

During the dates the short course is in progress, Mr. Yeates will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to Wink and Blankinship.

Area Churches To Meet Friday

A Sectional Fellowship meeting of 14 area churches will be held here Friday evening at 7:30 at United Pentecostal Church, according to the pastor, Rev. A. P. Tipton.

Special messages will be presented by ministers from the visiting churches. Good singing is also planned, Rev. Tipton noted.

The public is cordially invited.

The YWA of Oak Grove Baptist Church will sponsor a car wash at the Pied Piper car wash beginning at 8:30 a.m. Saturday. The price will be \$2 per car.

Pick up and delivery service will be given. The numbers to call are 576-2658 and 576-2657.

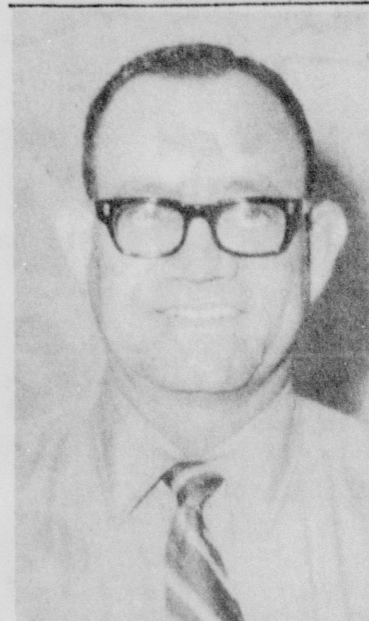

Jones County Fair To Open Aug. 20

The Jones County Fair Board of Directors completed final plans for the Jones County Fair at a breakfast meeting at Wilma's Cafe in Anson on Tuesday, July 7, according to word this week from Woodrow Bagley, President of the board. The fair dates are Aug. 20, 21 and 22.

The board voted to appropriate \$25, \$15 and \$10 to encourage floats in the parade this year. The parade will be held at 5:00 p.m. on Thursday, August 20th, according to a recent report from Dr. J. C. Duff, who is in charge

of the parade. All riding clubs in the Big Country are invited to participate in the parade event.

Latrese Williams Now Attending National Meeting In New York

Latrese Williams, a junior in Hamlin High School and third vice president of the Texas Chapter of Future Homemakers of America, is in New York City this week for the 1970 national meeting in session July 13-16.

Her assignment as a state officer for the national meeting is to provide decorations for the eight banquet tables

for the 25th Silver Anniversary dinner tonight (Thursday). She prepared old children's western boots and sprayed them silver. Arrangements of artificial bluebonnets and native yellow roses were prepared for each of the eight boots.

Latrese was accompanied by her advisor, Mrs. Joe Wayne Carter, and officers, Paula Wilfang of Weinert, Penny Schlegel of Olney and Carolyn Flournoy of Breckenridge.

They joined the Texas delegation of 116 delegates and 31 adult advisors who left for New York City. Betty Romans, state advisor, was head of the delegation.

Each state delegation has a particular assignment to carry out. The Texas delegation was to be in charge of a special number for Fun Night Program, serve as delegate retreat leaders, hostesses for the anniversary dinner and ushers.

Fifteen hundred youth delegates representing a national membership of 600,000 from all fifty states, Puerto Rico, and the Virgin Islands, were expected. Adult advisors were expected to number 500.

Latrese, daughter of Mrs. Donley Williams, 128 N. W. Ave. I, is also third vice president of the local FHA chapter.

The 25th anniversary meeting was to focus on the objective to Promote Communication for the Enrichment of Human Relationships which FHA members chose as A Dare of the Decade.

FORTY-FIVE YEARS AGO
(July 17, 1925)

W. R. Lence, assistant to the President, J. J. Lane, general traffic manager and A. J. Cleary, superintendent, of the Orient Railway, completed a tour of the Texas division last week inspecting cotton handling facilities. An extensive study is being made of the cotton situation this year in an attempt to improve cotton handling methods.

Mr. Lence came to the Orient after many years of experience as Agent of the Missouri Pacific at Kansas City, which at that time maintained one of the largest freight stations in the United States.

Preparations are being made for an ample supply of cars for the shippers located on the Orient. As far as practicable, it is planned to load cotton as fast as it comes from the various yards and avoid the confusion incident to holding it on platforms. Another improvement in handling methods is to take all shipments when offered and issue bills of lading for them without delay.

To avoid delays and the expense of rebanding bales, the co-operation of the gins is requested in the elimination of "rolling" bales. Experience has proved these defective bales are due largely to the "speeding up" of automatic distributors in gin boxes.

A meeting of the local agents on the Texas division has been called for August 22nd, to consider cotton handling in all its phases. The object of the meeting is to consider ways of increasing the efficiency of service to the shipper. Present reports indicate a large cotton crop over the entire West Texas country and the Orient asks the cooperation of gins and general shippers in handling the movement speedily.

TWENTY YEARS AGO
(July 14, 1950)

Installation of a traffic control light at the intersection of Central Avenue and Lake Drive by the Texas State Highway Department was completed early this week.

Negotiations had been pending for several months between the city council and the state highway department for the installation of the light and an exhaustive survey of traffic at the intersection had been conducted by the state.

Increases in traffic from both directions as determined in the survey led to the erection of the light, which is a "stop and go" light rather than a blinker control.

At the same time that the light was granted to Hamlin, the department of public safety was emphatic in their recommendation that the corner be properly policed in order to make it effective.

Police Chief J. S. Foster has stated that a right turn will be permitted on a red light after the motorist has come to a complete stop and determined that the right of way is clear. No U-turns will be permitted at the corner where the light is situated.

At the same time the action

was taken, the highway department recommended against a stop light at the bank corner in Hamlin as not being practical. The amount of traffic at this intersection was judged to be insufficient to require the policing that would be necessary at this point.

Need for a light of this type at the junction known as the McCaulley Y is the subject of a survey to be conducted later by the state.

Expense of installation, operation and maintenance of the light at Lake Drive will be paid for by the state of Texas.

TEN YEARS AGO
(July 14, 1960)

T. C. Blankinship, vocational agriculture teacher in Hamlin High School, has announced that a new teacher has been hired for the agricultural department, Milburn Wink, who was reared in Coke County, will join the school faculty this week.

Superintendent C. F. Cook said that the State Department of Education had granted the school an additional teacher for that department and Wink comes to the school with very high recommendations and a background of experience in agricultural activities.

A graduate of Robert Lee High School in 1953, he was a graduate of San Angelo Jr. College in 1955 and of Texas Technological College, Lubbock in 1957 with a Bachelor of Science degree and lacks only 12 hours work on his master of Science degree at Texas Tech.

Wink is unmarried and has just completed two years service with the U. S. Army.

Very active in athletics in high school and junior college, Wink was all-district football player as well as captain of his team in high school.

He was salutatorian of his high school class and a member of Alpha Zeta in college.

He holds the American Farmer Degree which is the highest degree obtainable in the Future Farmers of America. He is also a past president of his FFA chapter.

Johnny Stovall and Neal Branscum will represent the Hamlin Chapter of Future Farmers of America at the 33rd State convention to be held in Houston, July 20-22.

The boys, accompanied by Milburn Wink, new agricultural teacher here, will leave for Houston Tuesday morning. Plans are being made by the Stamford District to charter a bus to take area members to the convention.

Approximately five thousand representatives are expected for the convention which will be held in the huge air conditioned Houston coliseum.

Neill Masterson, convention chairman, said that a warm welcome and an outstanding program awaits the boys in Texas' largest city. There are many important people who will speak to these boys. Fun as well as business will be enjoyed, talent shows, professional shows and tours of the city have been arranged.

Neinda Philosopher Claims He's Found the Key For Learning When Taxes Should Be Increased

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reviews the tax situation this week in his own peculiar way. Dear editor:

Government officials are always hunting for new sources of tax revenue, in fact one state is offering a reward to anybody who comes up with a new idea for more money but I doubt if it'll be paid as the only source of taxes so far in the history of the human race has been people and I don't see any prospects for any change in the system.

Therefore the problem narrows down to a matter of timing — when does Congress for example figure the people can stand a little more taxing without changing Congressmen, and the best method of gauging this was proclaimed by a Congressman in an article I read in a newspaper last night.

According to him, this is no time to increase taxes because "the people are in no mood for it."

There's the key to the whole thing. No taxes anywhere should be raised till the people are in the mood for it, but don't go any further. I mean, don't suggest the old taxes shouldn't be paid either till the people are in the mood for it.

Now if Congress at any time is in doubt about the mood of the people for more taxes, I'll be glad to take the contract at a fair price to conduct a nation-wide opinion poll, with more accuracy than any other poll, including the British ones.

I'll guarantee that without even leaving the front porch of my house on this Johnson grass farm I can tell you exactly what the mood of 95 per cent of the people is, in this country or any other on earth, on the question of

raising taxes.

Furthermore, while I'm conducting the survey, for an additional fee I can determine how 95 per cent of the people feel about increasing governmental services.

I can even narrow it down to any particular city you name. For example, my survey will show that New York city wants less Federal spending on non-essentials and more Federal spending on New York. Cincinnati? Ditto. Chicago? Ditto. You name the town or city and I'll supply the ditto.

Yours faithfully,
J. A.

GOING UP...

A building is being erected. It is made of strong materials, steel and concrete. The foundation is firm and deep. The edifice is built to endure.

We need to build our homes to endure. They need a strong foundation. They need to be built on the rock of Christ. Psalm 127:1 reads, *Except the Lord build the house, they labour in vain that build it.* Attend church regularly that your house may be instructed in the ways of the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Dinner Saturday Honors Brother From California

Mr. and Mrs. Dan Branscum, 339 West Lake Drive, hosted a dinner Saturday at their home for her brother, Luther Parker of Los Angeles, Calif.

A former resident of Hamlin, he will return to California Aug. 17.

Guests include two other sisters and their families, Mr. and Mrs. James Branscum of Snyder and Mr. and Mrs. J. W. Maberry and children, Tony and Gary Don, all of Hamlin, and Mr. and Mrs. Dannie Maberry, Shannon and Shanna of New Mexico.

Other guests included Mrs. Gene Steele, Gena and Ric, Mr. and Mrs. L. B. Bruner, Sharon and Michell, all of Hamlin.

Former Resident Returns from Tour

Mrs. Iris Hay, a former Hamlin resident and graduate of Hamlin High School, and her daughter Marilyn have just returned from a three week

tour of Europe. Mrs. Hay is the former Iris Criswell, daughter of Mr. and Mrs. O. R. Criswell who now reside in Ranger.

The two spent one week in Copenhagen, Denmark, where Mrs. Hay attended the International American Medical Laboratory Technologist Congress. They also visited France, West and East Berlin, Sweden, Norway, England and Scotland, before returning to Fort Worth where Mrs. Hay is a registered Histology Technologist with the Fort Worth Medical Laboratories.

Mr. and Mrs. Daniel Suarez of Rotan are parents of a boy, Daniel Jr., born July 10 at 3:48 a.m. He weighed 5 lbs. 6 oz.

Mr. and Mrs. Billy Jack Linsley of Aspermont are parents of a boy, Tommy Lee, born July 13 at 1:16 p.m. He weighed 7 lbs. 14 oz.

Mr. and Mrs. Alexander L. Flores of Stamford are parents of a girl, Cynthia S., born July 13 at 9:15 p.m. She weighed 7 lbs.

AUSTIN, — Cold figures submitted in major agency budget proposals left top state officials and legislators little room for optimism about the next year's tax bill.

Texas Education Agency calculated public school operations during the next biennium will cost about \$2.3 billion — \$2 billion in state money alone. This is an increase of about \$377.1 million over the present level.

Nobody was too surprised

about that, but the Texas Public Welfare Department came up with a shocker.

Welfare staffers figure that the rising assistance rolls will require a budget of nearly \$2 billion overall for the 1972-73 fiscal period. That represents an increase in state welfare funds of \$300.4 million over the current biennium.

So, two vital functions of state government alone — public education and welfare — are seeking some \$677.5 million in additional revenues. It is expected that most of the other agencies will request more than their present appropriations instead of less.

Welfare requests, as large as they are, do not take into consideration larger grants for the needy and ill.

However, a Senate Committee has recommended the \$80 million a year ceiling for state spending on categorical assistance be abolished and aid payments be matched to actual need. If enacted by the Legislature, this would mean millions more in welfare

Mr. and Mrs. O. R. Criswell of Ranger attended the Celotex picnic here Saturday and visited with friends and relatives through the first part of this week.

spending.

Lt. Gov. Ben Barnes expressed grave doubts that legislators would accept tremendous increases in welfare spending without "substantial reform" of the entire welfare system.

Welfare officials note that assistance rolls continue to expand uncontrollably (due largely to federal court rulings and rising population).

COURTS SPEAK — Supreme Court upheld tough rules defining guests and required food service at private drinking clubs. In another decision involving the Alcoholic Beverage Commission, the Court refused to outlaw the purchase of liquor by "agents" for the private lockers of members of dry area clubs.

In a Texarkana-area case, the Court held that victims of uninsured drivers must prove there was no insurance coverage on the other motorist before he can collect on his own uninsured motorist policy.

A Houston nurse, who claimed purchases were charged against her on a bogus credit card, lost her appeal to the top court in her effort to collect damages from a discount house and bill collection service which persistently tried to make her pay.

EAGLE RULING NEAR — Railroad Commission soon will rule as to whether the famed Texas Eagle passenger train can be discontinued

by the Missouri-Pacific Railroad.

Eagle is one of three passenger hauliers now operating across the state.

M-P claims that the train is losing money and wants to cut it off. Railroad attorneys argued that the Commission has no right to force it to continue to lose money.

Contending that the train should be kept in service, the National Association of Railroad Passengers said if M-P tried harder it could sell more passenger service and make a profit.

Train runs from St. Louis to Larado, through Texarkana, Palestine, Austin and San Antonio.

DRIVING SCHOOL — Drivers who collect too many moving traffic violations may be going to night school to learn better behavior.

Thirty new sets of driver-training equipment will be provided to 20 regional education service centers over the state to teach students by day and adult traffic violators by night. This is in line with a new plan approved by the State Board of Education. National Highway Safety Bureau will pay \$698,100 for simulator equipment and supplementary educational programs.

INTEGRATION AID ASKED — U. S. Justice Department has called for state aid in meeting federal integration guidelines by 48 Texas school districts.

Among the larger districts named as not in compliance were Amarillo, Austin, Odessa, Lubbock Port Arthur, Beaumont, (South Park), Temple, Richardson and Wichita Falls.

State education agencies, federal authorities noted, have control over local districts in such vital matters as state aid, accreditation and textbook distribution.

INSURANCE HEARING DELAYED — A delayed hearing date on auto insurance rate-making in effect assures Texas car owners that any premium hikes won't be effective until around December. Raises were expected by September.

Investment board put off the hearing slated for July 14 on whether investment income of companies should be considered in the rate base and at the same time postponed an August 17 hearing on the rate itself.

Investment income hearing now likely will be set for September 9, and another hearing will follow by a month or more.

SCHOOL GROUP FORMED — A new statewide group called "Citizens Association for Public Schools" has been formed to oppose diversion of public funds to non-public elementary and secondary schools.

Organization made no secret of the fact that it will "work for keeping public tax money for schools confined to support of the public schools." Some private and church schools have indicated they will seek state assistance next year.

Affiliated organizations include Texas State Teachers Association, Texas Association of School Administrators, Texas School Boards Association, Texas Congress of Parents and Teachers, Anti-Defamation League, Baptist General Convention of Texas and Americans United for Separation of Church and State.

SHORT SNORTS

Two members of the Board of Mental Health and Mental Retardation, Dr. Horace Cromer of Austin and Isaac Arnold of Houston, have resigned.

Comptroller Robert S. Calvert is in the process of moving to the brand-new State Finance Building and will be followed quickly by Treasurer Jesse James.

Pollution experts now say some Texas Gulf Coast air pollution may come from as far away as Chicago and Cleveland.

A team of 34 law enforcement leaders began its fight against organized crime in Texas, bolstered by a \$213,669 federal grant.

Texas ranks third in sales of fishing licenses and fourth in hunting licenses, according to Parks and Wildlife Department.

Eighth annual Texas Youth Conference summer session will be held July 30-August 2 in Seguin and Austin.

More than 100 government and business leaders will participate in Texas Transportation Congress at Arlington on Friday.

Assistant Manager Named for Sweetwater Technical Institute

SWEETWATER, TEXAS — Horner K. Taylor of Sweetwater has been named the assistant manager of the Sweetwater Facility of the Texas State Technical Institute.

The announcement was made today by the manager of the school, D. A. "Bill" Pevehouse.

Pevehouse said Taylor's appointment becomes effective this month. Taylor, prior to the TSTI appointment, was assistant principal of the Sweetwater High School in charge of attendance and discipline. He has been employed with the Sweetwater public schools for eleven years.

Taylor will join with Pevehouse and a staff of 12 instructors and 12 support personnel in September when the Sweetwater branch of the state's first technical school opens for classes.

Pevehouse said seven different day courses would be offered in September and eight evening programs are slated to begin. The seven one-year programs offered on a tuition basis during the day are: air conditioning and

refrigeration mechanic, auto body repairman, building construction craftsman, dental assistant, radio and television servicing, technical communications (technical office assistant), and welding.

The night courses include: air conditioning and refrigeration mechanic, auto body repairman, building construction craftsman, farm equipment mechanic, radio and television servicing, technical communications (technical office assistant), welding, and pilot training (ground school).

The school is located four miles west of Sweetwater at the location of the former Sweetwater Air Force Radar Site on 13 and one half acres of land owned by the City of Sweetwater. The eighteen permanent and semi-permanent buildings will be converted into shops, laboratories, and offices before September. The campus will include a student center and cafeteria.

Two Charged With Driving While License Suspended

James Edward Garrett, 27, Box 14, Hamlin, and Roy Glen Phelps, 22, 650 N. W. Ave. A, were charged with driving while license suspended (DWLS) in Jones County Court.

Garrett was arrested July 11. Phelps was arrested July 12. Jimmy Ratliff, City Patrolman made both arrests.

Garrett and Phelps are free on \$750 bond set by Justice of the Peace John Barnett.

Local Students On H-SU Honor Roll

Three Hamlin students were named to the Hardin-Simmons University honor roll for the 1970 spring semester. Qualifying with a 3.58 grade

point average of 12 or more semester hours were Gil Lain, freshman; Bettye Shira, junior; and Sharon Truelove, senior.

Two students listed on the Honorable Mention Roll were Keta Casey, freshman and Bryan Wasson, freshman. These students are enrolled for six to 11 semester hours with a grade point average of at least 3.58.

Gary Cauble Makes Dean's Honor Roll

Gary Cauble, son of Mr. and Mrs. J. C. Cauble, Route 1, Hamlin, has been named to the Dean's Honor Roll for the 1970 spring semester at Oral Roberts University in Tulsa, Okla. A total of 104 ORU students were named to the list.

To be eligible for the honor roll, a student must have earned a 3.5 grade average or better

H & R Block Seeks Satellite Franchise Program Dealer

Ron McCrory, area Manager for H & R Block in Abilene, indicated that there are plans to open an office in Hamlin for the 1971 tax season, through an exclusive "Satellite Franchise Program." McCrory explained that the Satellite Franchise Program was developed to make available to every community a qualified tax preparation service. "Every citizen today needs competent help in the preparation of his tax return," stated McCrory. "A person just cannot afford to be a once-a-year expert in this field."

McCrory cited many reasons for Block's rapid growth to over 4,000 offices nationwide this year. McCrory stated, "The Block Satellite Franchise is designed to be compatible with existing service businesses such as insurance agencies, real estate brokers, or bookkeeping services. The Franchise is provided with necessary training and supplies, along with direct supervision of the company."

H & R Block was founded in Kansas City in 1955 and is projecting to grow to over 5,000 offices for the 1971 filing season. This will include over 2,000 franchise offices.

McCrory also stated, "the goal of H & R Block is to provide the taxpaying public with a convenient service when it is needed most. To accomplish this goal in communities under 15,000 population, the company selects a responsible member of the community for the franchise program." Hamlin is one of the 2,000 franchised outlets planned for 1971.
